April 22, 2026

B.J. Jones  
President and Chief Executive Officer (CEO)  
Roosevelt Island Operating Corporation  
426 Main Street  
Roosevelt Island, NY 10044

Dear President Jones,

We write as elected officials representing Roosevelt Island to respectfully request that RIOC take the lead in establishing a Community Advisory Group (CAG) for the Roosevelt Island Steam Plant project.

We appreciate the coordination of the April 15 Town Hall and the opportunity it provided for stakeholders to engage directly. Building on that discussion, and in light of the scale of this project and its significant public health and environmental implications, we believe it is critical to establish an ongoing forum for community engagement.

For these reasons, we suggest the establishment of a CAG to ensure consistent information sharing with the community. The CAG should include representation from relevant City and State agencies, residents, community organizations, and elected officials' offices, and should meet on a monthly basis.

We appreciate your attention to this request and stand ready to work collaboratively to support the formation of this group.

Sincerely,

**Assembly Member  
Rebecca A. Seawright**

**Congressman  
Jerrold Nadler**

**City Council  
Speaker Julie Menin**

**Senator Liz Krueger**
